ADDRESS
TO THE
Nervous and Debilitated,

Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable. If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing, or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? the bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart.

How many men, from the effects of excesses, have brought about that state of weakness in Sexual Organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have used remedies for all but the right one.

Diseases of these organs require the use of a Diuretic. HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure for diseases of the Bladder, Kidneys, Gravel, Dropsy, Organic Weakness, Female Complaints, General Debility and all diseases of the Sexual Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing.

If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S
Fluid Extract Sarsaparilla,

The Great Blood Purifier and Beautifier of the Complexion.

HELMBOLD'S
EXTRACT SARSAPARILLA

WILL RADICALLY EXTERMINATE FROM THE SYSTEM SCROFULA, SYPHILIS, FEVER SORES, ULCERS, SORE EYES, SORE LEGS, SORE MOUTH, SORE HEAD, BRONCHITIS, SKIN DISEASES, SALT RHEUM, CANKERS, RUNNINGS FROM THE EAR, WHITE SWELLINGS, TUMORS, CANCEROUS AFFECTIONS, NODES, RICKETS, GLANDULAR SWELLINGS, NIGHT SWEATS, RASH, TETTER, HUMORS OF ALL KINDS, CHRONIC RHEUMATISM, DYSPEPSIA, AND ALL DISEASES THAT HAVE BEEN ESTABLISHED IN THE SYSTEM FOR YEARS.

Being prepared expressly for the above complaints, its Blood-Purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color, and restores the patient to a state of health and purity. For purifying the blood, removing all chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Erysipelas, and all Scaly Eruptions of the Skin, and Beautifying the Complexion.

HELMBOLD'S
CATAWBA GRAPE PILLS.

The Most Reliable Purgative and Cathartic Known—Superseding Salts, Magnesia, etc.,

in Sick or Nervous Headache, Jaundice, Indigestion, Constipation, Dyspepsia, Billiousness, Liver Complaints, General Debility, etc. No nausea, no griping pains, but mild, pleasant, and safe in operation.

The CATAWBA GRAPE PILLS

Are purely vegetable, being composed of

CATAWBA GRAPE JUICE

AND

FLUID EXTRACT RHUBARB.

Beware of those cheap patent pills, carelessly prepared by inexperienced persons—vended in wooden boxes—most of which contain either calomel, mercury, or other deleterious drugs.

FRENCH
FIRE-PROOF
LAMP CHIMNEYS,

These Chimneys, which are now for the first time offered to the public, possess all the essentials of a heat-resisting Chimney. They are well made, of a superior quality of glass, each one finished smoothly at the bottom, and being carefully annealed or tempered, will not break from the most intense heat of a lamp flame.

A trial of their merits will convince the consumer that, although costing a trifle more than the ordinary class of Chimneys in use, they will prove a source of much economy in the use of Kerosene, a saving of untold trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon burning Lamps.

Dental Card.

I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity. As parents you would do more for your children than for yourselves. A gentleman in Bangor, who is fifty years old, was in my office in April and said that he would give me one hundred dollars if I would save one tooth in his mouth without extracting it. But he was too late. If a man will thus value one tooth, what should he do for his children.

Now if you cannot save your own, you can save the teeth of your children. Almost every day some father or mother will come to the office with some dear child to have me extract some aching tooth. I examine the mouth and find that the painful tooth is *not a temporary* but a permanent one. The parent is surprise; you are wrong, she has never had but one tooth there, she will certainly have a permanent tooth when this one is out of the way.

A very large proportion of our patrons have never known, or have forgotten, that in our first set we have but *twenty* teeth. And that all teeth that grow back of the twenty are permanent ones, thirty-two in all. I have extracted within the past year, seven *permanent* teeth for one little girl who was not eleven years old. Will you parents suffer your children to suffer for their life time by your neglect? If by neglect you have lost your natural teeth, a good culture will tell you where to go for the best artificial ones. Hundreds of people in Bangor and vicinity will endorse by their own experience all that he has said in his paper.

"DR. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skillful practitioner of the dental art. At least, he has made one old face in our house look young again, and has fitted, by art, a pair of jaws to masticate the food again which dame nature thought to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be exceled anywhere.—*Rural Intelligencer.*"

My price now is $50 for a whole set of the best artificial teeth, $25 for a half set.

Important Notice
TO
Ship Owners.

AMERICAN LLOYDS OFFICE,
Burling Slip, New York,
Jan. 31, 1871.

The Register for 1871 is now ready. The January Supplements will contain the introduction to the history of the "Register." In order to supply the demand for the Exposition, an extra edition will be printed and furnished gratuitously to all parties in possession of a book called the "Record," or a book called the "American Lloyds Universal."

HARTSHORN & KING.

The American Lloyds Register, being the acknowledged standard of American surveys of shipping, approved by underwriters generally, and adopted by the Peruvian Government as a standard for the selection of ships to carry Guano, also by the California Board of Underwriters and the West India Lloyds at Havana, &c., &c., it is important to owners to have their vessels surveyed and classed in its "Register." Having competent surveyors throughout the State of Maine, I am prepared to order or make surveys personally, of those apply, and to grant certificates of classification. Also certified copies of the American Lloyds Register, for 1871, by sending their orders to me at the National Insurance Company, Bangor.

75,000 Acres
OF GOOD
Timber Land
For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York.

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tanneries, located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power, (we might say right in the Canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

SATURDAY SEPTEMBER 16 1871.

THE ROGUES FALLING OUT

The open break in the Tammany ring leads to the hope that if the honest men of New York city do not succeed in recovering their property there is a chance that some of the rogues will be brought to account — The pretended burglary of the offices, by which the want of vouchers for the plunder was to be explained was too gross an imposition to deceive the most credulous and it is astonishing that great rascals could conceive such an expedient. It shows, however that the members of the ring have grown desperate under the concentration of popular wrath and confirms the belief that the gigantic system of fraud which has been protected by public indifference may be toppled over in a short time if the people persist in a continued and well directed assault The letter of Hall to Connolly is a concession of the ring and Connolly's defiance of the Mayor shows confidence on his part that these celebrated scoundrels must sink or swim together We hardly understand the motive of the Tribune Post and other papers in joining the World's endorsement of Hall's demand for the resignation of the Comptroller It would be the most farcical ending of the popular movement to permit Hall Tweed and Sweeney to make a scape goat of their colleague. The war on the ring should be carried on without quarter and nothing would satisfy the public until every one of the leading villains shall be brought to justice. Hall probably thinks that his friend Slippery Dick can afford to retire upon his own earnings and his wife's $5,000,000 and with a virtuous pretension of future honesty hopes to appease popular clamor and save himself The evidence already made public stamps condemnation upon the Mayor as the accomplice of the most stupendous frauds, and we sympathize with Connolly's defiance to the extent of hoping that he will drag down the whole fabric in his own fall

The surest indication that the ring hope to revive Connolly's sacrifice is given in the eager assault of the World upon that chosen victim and its earnest support of the position of Mayor Hall That paper has been the prompt and willing tool of the men whom it now described in their actual character as official brigands and its championship shows that the thieves hope to retain their places by throwing overboard one of the gang. It is amusing to notice the Democratic papers that have hitherto indignantly denied the charges against Tammany, in their efforts to change front under the lead of the World The Portland Argus begins to think that matters are growing serious, and after lugging Tammany and its scoundrelism through our State campaign now intimates that something may be wrong in New York and is glad to see the Democracy taking the lead in exposing the corruptions there." We have hitherto given it much more trustworthy Democratic authority than that of the World admitting the corruptions of Tammany but the Argus and its political associates have championed the ring to their own discomfiture and only retreat from their position when the facts have become so plain that the rascals are given to public condemnation. It is not true that the Democracy are taking the lead in the exposure of the corruption The N Y Times a sterling Republican journal, led the assault and sustained the warfare almost unaided until its startling exposures aroused the public to the enormities perpetrated by their criminal rulers Then the better portion of the Democrats joined in the crusade against municipal villainy and some of the heaviest blows have been dealt by those whose familiarity with the practices of the ring render their attacks especially damaging. These, however, were a different set of Democrats from those exemplified by the papers in this State which refused to espouse the cause of the people and on the contrary sympathized with the class which denounced the anti Tammany leaders as traitors to the Democratic party The Argus has not approvingly quoted Congressman Roosevelt's and has not commended the efforts of the Democrats who have declared hostility to the ring It is late, therefore, in beginning to sympathize with Democratic exposure of corruptions

The revelations are becoming more astounding, as light is thrown deeper into the secrets of this unparalleled system of public robbery, until we wonder how a community can have borne so long with the crimes that have been perpetrated. It is important to the country at large and to the cause of good morals everywhere that the movement now inaugurated shall be pushed unflinchingly until the honor of New York city is vindicated and Justice which points with one hand at the ... of the ring and with the other towards Sing Sing Prison, shall have been fully and signally appeased

---

Returns from some 360 towns indicate that the total majority will be about what we estimated We shall publish all the returns received, on Monday morning No returns have come in from Aroostook as yet The Republicans have probably elected County officers in all except Knox and perhaps Lincoln Counties and in Hancock where mixed tickets may have elected some of the Democratic County officers Republican Senators have been chosen in all the Counties except in Knox in Waldo where railroad disputes have elected two Democrats in Aroostook where an independent Republican is probably elected through another railroad quarrel, and in York where J E. Butler has been defeated by the opposition of many Republicans, engendered by the Congressional contest of last year There is no choice for a third Senator and Mr Butler's vote is not large enough to make him a constitutional candidate before the Legislature the two highest candidates being Democrats one of whom must be chosen In Lincoln it is found that we have elected Kennedy, Republican Senator, in place of a Democrat last year The elections of Representatives indicate that the House will be divided about the same as last year and the Legislature will stand practically the same Last year the Senate stood 28 Republicans and 3 Democrats, House 113 Republicans and 88 Democrats.

At a Democratic meeting in Augusta on Saturday night, an ambitious young politician of that city enacted a piece of very low comedy, by reciting some doggerel verses in which a natural infirmity of one of the editors of the Kennebec Journal, who has been afflicted from childhood with stammering, was imitated and ridiculed amid the applause of the vulgar gathering The subject of this heartless insult has replied in the Journal in a dignified and feeling manner, and we do not envy the reflection of the person thus scathingly rebuked for a wanton outrage upon the misfortune of another. Will Democrats never learn that the intelligent people of Maine are disgusted by the contemptible personal abuse and scurrilous appeals to the baser instincts of the rabble, which seem to form the sole reliance of the speakers and writers of that party, even to those who make pretensions to respectability?

A Washington correspondent says that the papers and accounts of Seminole, that Postmaster of Atlanta, Ga., will convict him of embezzling $30,000

THE ELLSWORTH RAILROAD CONVENTION

ELLSWORTH, Sept 14, 1871

To the Editor of the Whig and Courier:

The official report of the proceedings of the Shore Railroad Convention held here to-day, will be furnished you by the Secretary, in accordance with the vote of the Convention I will therefore content myself with merely sketching the sayings and doings

The attendance of delegates was very full, nearly every town in Hancock and Washington being represented, Bangor had a strong delegation, headed by Mayor Dale which was very influential in the Convention Castine and Bucksport each had an influential delegation present.

After the introductory exercises, Hon S. H Blake was called upon to address the Convention He briefly reviewed the railroad history of Bangor, and described the work and methods Bangor had used in the construction of her railroads He told of the discouragements and struggles, and of the faith and courage of Bangor in her system — In conclusion he powerfully summed up the fruits of harvest that Bangor was now reaping without having sown a single dollar, but simply having given the strength of her credit. In alluding to Hancock and Washington counties, with their 100 000 people and $100,000 000 of property being without a railroad he said that if some mighty capitalist or feudal lord owned the counties he would put a railroad through merely as an investment, without regard to the convenience of his tenants

Dr Tefft expatiated upon the position and resources of the State,—upon the influence of railroads in making property, and especially real estate, more valuable and upon the probable results of an Eastern Shore Road.

Mayor Dale being called upon for that purpose stated the obligations Bangor had assumed to aid railroads, and how easily she carried them He paid a fitting tribute to the memory of John A Poor

The Convention then adjourned till afternoon, to give the Executive Committee an opportunity to fill vacancies and make their report upon matters entrusted to them at the last meeting

At half-past one, upon the reassembling of the Convention, Rev Mr Ives, of the Castine delegation, addressed the Convention, setting forth the advantages of Castine as a western terminus. He said Castine had the best harbor on the coast, always free from ice, and completely land-locked She was in the straight line from the East to Rockland and Portland Passengers arriving from the east could go by boat to Portland or Boston, or ferry to Rockland and take the cars again Travel preferred steamboats—witness the travel between Boston and New York via the Sound steamers or that between New York and Philadelphia via Amboy steamer He said Portland would aid in the work, and finally Castine would raise $250,000

Dr Ladd, of Bangor, said he did not mean to discuss the question of terminus, as the main question was to build the road. The capital invested would fix the terminus. The speaker was sure that capital would select Bangor, as that was the centre of Eastern Maine Dr Ladd then proceeded to discuss the narrow gauge in a business like way, fortifying his views by statistics. He read, amid much laughter, some objections urged against railroads forty years ago The objections made now, would appear fully as absurd forty years hence Dr. Ladd's remarks were very practical and valuable.

Mr. Peavey, of Lubec, set forth the advantages of Lubec as the eastern terminus It had a good harbor, was on the straight line to St. John, &c &c , a road to Calais would cost half a million more

John L Buck presented the claims of Bucksport as the western end, as she was about to build a railroad to Bangor on her own account, and Castine could build up to them.

Rev. Wm A Savary of Ellsworth, said he did not represent capital nor business, but he hoped he could influence the public good. It was humiliating that Eastern Maine had been so long without a road, that it had allowed the E. & N A Railroad to go up the Penobscot river instead of following the coast. We must now build our own line. We must either open a railroad or die of inanition If Ellsworth could not compete with Bangor, he wanted to know why He believed a railroad could be built, and that it would become a thoroughfare.

H. Hume, Esq , of Cherryfield, spoke in behalf of the young men of Eastern Maine who were driven west to get into business He said "Open up these two counties to the world, connect them with the business of the country and give the young men a chance" He wanted to get into a warm car in Cherryfield and ride to Boston without waiting for storms He did not want to incur the risk of stopping over at Castine because the steamer would not venture the seas

The Executive Committee, through Hon George Walker, reported that they had appointed a sub-committee to procure a charter, and another sub-committee to procure a survey of the entire route. They also had assessed $2,000 on the various cities and towns along the route to pay the expense of a survey. Bangor was assessed $500, Ellsworth $300, and other towns in smaller sums C. P. Brown, Esq , announced that the Committee on the survey would meet in two weeks to enter upon the survey, and he hoped the funds would be raised by that time.

The Convention then adjourned till evening I will send a brief report of the evening session by next mail

POLITICAL AND PERSONAL.

The news from Ohio continues very encouraging to the Republicans

By the latest returns from California, the Democrats have two majority in the Senate, and the Republicans a clear majority on joint ballot

Horace Greeley delivered an address before the Northwestern Agricultural Association at Minneapolis, Thursday, to an audience of 7,500 people.

The prohibitionists of Massachusetts have issued a call for a State Convention, to be held at Tremont Temple in Boston, on Wednesday, the 4th day of October next

The Democrats are trying to explain the causes of their recent defeats in California and Maine. They are likely to have much of this kind of work before snow flies.

The next State election in order is that in Texas, occurring October 3d. Then on the 10th of October, Pennsylvania, Ohio and Iowa choose State officers and members of the Legislature

The Philadelphia Press says the canvass in Pennsylvania has now become as active and enthusiastic as the most ardent Republican could desire, and it predicts a substantial Republican victory at the coming election.

The Ellsworth American says "The papers west seem to talk as if Washington county had gone Democratic. From our advices this county is as true as steel, and has elected its county ticket entire, and given Gov Perham a good majority"

The re-count of votes of San Francisco developed the use of ... with which, the name of Badlam, a tax payers' candidate for Assessor, had been erased from about twenty ballots, the erasure not showing until some hours after the ballot had been deposited.

The Republican State Convention in Massachusetts will be held in Worcester, September 27th. The whole number of delegates will be 1,000

Of all the sad words of tongue or pen, ... —Boston Post.

Colorado Republican by an increased majority, with an almost unanimous Legislature, and a Republican victor in New Mexico, electing Republican delegates to Congress and a majority of the Legislature, were pleasant echoes of the triumphs in Maine and California, but rather disheartening to the Democracy They will hear more announcements of the same nature before long

THE TAMMANY THIEVES It is reported that Mayor Hall and Sweeney have determined to force Connolly out of office, but that Tweed supports Connolly in his refusal to resign It is also said that Hall and Sweeney held a meeting on Thursday to devise means of fighting Tweed The sub committee of the Citizens' Committee on the City and County accounts were engaged Thursday in examining the books in the County Bureau and in the Comptroller's office. They afterwards held a secret meeting with the sub-committees of the joint committee of the Board of Supervisors and Board of Aldermen. Mr Booth, Chairman of the Citizens' Committee, says they are advancing slowly but surely, and investigating everything relative to the accounts Mr. Lynes, County Auditor, states that the list of stolen vouchers for paid claims against the county for 1870 will not be made out in less than ten days. There was a smaller attendance on Friday than on any previous day at the hearing of arguments on the injunction of Foley against the city officials Bartlett, Tweed's counsel, concluded his argument and ex Judge Barrett followed for the plaintiff

THE DEFAULTING POSTMASTER The bondsmen of Postmaster Jones of New York will make good the defalcation of Norton his assistant, and Jones has sent for his wife that he may transfer his own property to his bondsmen to protect them if Norton's property proves insufficient.

Still Onward and Upward.

The extraordinary increase that has taken place in the sale of Hostetter's Stomach Bitters during the past year, is another proof that an intelligent people, although they may try all things, hold fast only to that which is good No amount of puffery can lift inferior articles to the position of standard specifics To use the words of Tom Paine, they may go up like a rocket, but are sure to come down ignominiously like its extinguished stick. Hundreds of such nostrums have gone up and come down since the introduction of Hostetter's Stomach Bitters, nearly the fifth of a century ago Yet it still remains the supreme tonic of the age. It has not, and never has had a rival in efficacy or popularity, and now stands at the head of all proprietary remedies manufactured on this side of the Atlantic. In every civilized community on this continent, or in South America, it is the accepted remedy for dyspepsia, bilious complaints, constipation general debility, nervous weakness, and many other unpleasant or dangerous maladies A medicine so widely extended is of course pirated and imitated by dealers without conscience or integrity.

Therefore, let every man and woman who designs to purchase the genuine Hostetter's Stomach Bitters, see to it that they have what they pay for, and not the results of an infamous imposture Look carefully at label, stamp, and name blown in the glass, and do not forget that the *true bitters* is sold in bottles only

THE PENOBSCOT MUSICAL ASSOCIATION

Will hold its Twenty-fourth Annual Session in NOROMBEGA HALL, in Bangor, Me , commencing on MONDAY EVENING, Sept. 25th, 1871, at 7 o'clock, and closing on Friday evening, Sept. 29th, under the direction of

Prof. L. H. SOUTHARD,

of Boston, Mus, Doc —late Director of the Academy of Music, Peabody Institute, Baltimore, Md , and author of several Musical Works

The Trustees have engaged the following favorite singers to be present —

Mrs H M SMITH of Boston, Soprano,
Mrs J A CROWELL, of Bangor, Soprano.
Mr. WILLIAM J WINCH, Tenore,
Mr FRED C PACKARD, Tenore,
Mr JOHN F WINCH, Basso;
Mr FRANK SPRAGUE, Basso, of Boston.

WALKER'S IMPROVED PORTABLE RANGE.

THE NEW RANGE excels anything of the kind ever offered for sale It requires much less space than ordinary cooking stoves, and is more economical It will heat as much water as a range set in masonry

The HOT CLOSET retains the heat usually radiated from the bottom, which is, during the summer months WORSE THAN WASTED, thereby not only SAVING FUEL, but making the KITCHEN MORE COMFORTABLE, besides furnishing an admirable place for warming and keeping food warm, warming plates, &c The door can be removed during cold weather to allow the heat to escape into the kitchen

Coals are separated from the ashes in the SIFTING CHAMBER.

THE FOLDING SHELF, together with other improvements referred to, make it all we claim for it, viz THE MOST DESIRABLE COOKING APPARATUS TO BE FOUND ANYWHERE.

A Valuable House for Sale,

The owner, having removed from the city, wishes to sell this house, situated on West Broadway. It is a large new, two-story house with a French roof, and is furnished throughout in the best manner and with all the modern improvements. It is situated on one of the pleasantest street in the city, and all of the surroundings are as good as could be found anywhere. The lot contains about seven eighths of an acre (102 feet on the street, and about 350 feet back) and is all under a high state of cultivation. The soil is very nice and light There are nearly all kinds of fruit trees and shrubbery on the lot, and a nice flower garden beside the house. It is seldom that such a chance is offered to persons wishing to buy a nice house.

It must be sold immediately For particulars inquire at No. 4, Broad Street, Bangor.

EXTRACTS FROM THE CALIFORNIA PRESS

Dentistry —Those of our readers who are so unfortunate as to require the aid of a dentist should know where to go for the best work We have no hesitation in saying that the operations performed by Dr J, F Babcock in all branches, cannot be surpassed here or elsewhere, We have examined, recently, some operations by Dr Babcock, in which the *root* was built upon with *solid gold*, which for beauty strength and durability of workmanship cannot be excelled —[San Joaquin Republican

Fine Work —We noticed to day in the show case of Dr Babcock several very fine specimens of Dentistry The art of building up and replacing decayed teeth with gold has been brought to great perfection by this gentleman The specimens mentioned evinced very superior workmanship —[Stockton Evening Herald.

Beautiful operations —Paying a visit upon Saturday last to the Dental Rooms of Dr Babcock, we were permitted to examine some very large and exceedingly difficult gold fillings in the mouth of a patient then being operated upon They were truly beautiful, and reflect the greatest credit upon the skill and ability of the operator, Dr Babcock. We earnestly recommend him as standing high in the ranks of his profession —[Stockton Daily Independent

DOMESTIC NEWS.

THE WAR ON TAMMANY.

Close of the Injunction Case.

Judge Barnard Sustains the Injunction and makes it Permanent.

The Judge's Review of the Case.

NEW YORK, Sept. 15.

In the injunction case to-day, Mr. Barrett continued, reviewing the acts of Mayor Hall. He charged him with making paltry excuses, and then proceeded to the case of Connolly whose affidavit he said was the boldest and least trickey of any before the Court and which proves the falsity of Hall's answer. He argued that Tweed's and Connolly's answers contradicted each other.

Mr. Beach interrupting, charged Barrett with grossly garbling Connolly's affidavit.—After a brief and sharp controversy between the counsel about the manner of conducting the case, the court took a recess.

Barrett quoted the affidavits of Connolly and Tweed to show the discrepancies; declared the affidavits cunning devices to mislead, and that they were contradicted by portions of Tweed's and Connolly's own minutes. He argued that the Supervisors, by coming into court and praying for judgment on the pleadings, were stopped from making the objection that the plaintiff has no standing in the court. Mr. Barrett proceeded at length in the exposure of the errors and misrepresentations of the defendants' affidavits, and concluded his argument with a calculation that the city government had, after paying the State tax and public debt, over twelve million dollars for current expenses and appealed to Judge Barnard not to send the public who came to his tribunal seeking justice, away without receiving it.

Judge Barnard then, amid profound silence delivered his decision, granting the injunction permanent.

He said with regard to the point raised that the two-per cent. act was unconstitutional, that he would not declare the act to be so unless he was very clear on the case, and he had no such clearness and would not take the responsibility; he would prefer that it should be heard more maturely in General Term. The plaintiff having a clear right to sue, brings action against four defendants, officers of the city government, asking among other things that the Supervisors be enjoined from raising taxes in 1871 until certain things shall have been done. Second, that defendants be ordered to meet as a Board of Apportionment and do certain things. Third, that the Board of Supervisors be restrained from paying claims until the Board of Audit meet and set them apart. Fourth, that the Mayor, Aldermen and commonality be restrained from paying any expenses, except the Board of Audit set them apart. Fifth, that the Comptroller be restrained from paying claims in excess of the amount set apart by the Board of Apportionment, and from paying any debts incurred to the New York Printing Co., New York Transcript and Leader Associations and the Stationers' Co., or any of them, and that he be restrained from raising funds on behalf of the city and county of New York and the Board of Supervisors for paying any expenses of the government of the city and county for 1871.

The complainant also charges conspiracy on the part of three of the defendants by combination, collusion and fraud, to obtain the payment of dishonest claims on the City and County Treasury, and that they did other acts wrong and fraudulent. That allegation is made on "information and belief" and the three defendants deny it. Tweed denies that there is any truth in the allegations, the Comptroller denies in the same way and Mayor Hall denies it in language equally as strong.

The amount of belief to be attached to the statements as made against the defendant, Hall, can be weighed by the statements by the counsel for the people, who last addressed the Court, that he did not believe defendant personally interested in any of the companies or associations named in the charges against him. Then comes in a point of law to be borne in mind: Where an allegation is made on information and belief on one side and positively denied on the other, it is to be taken in favor of the person denying, unless other circumstances throw discredit on the making that positive denial. They also charge three of the defendants with having incurred vast liabilities and far in excess of the appropriations allowed by the Legislature. Their answer is that the two per cent. law did not repeal all the laws previously existing for raising revenue in this city and county. I differ from them. I think the two per cent. act repealed all laws except those giving power for the issue of bonds for docks and parks, and therefore those expenditures will not be taken into the two per cent. act. The departments of docks and parks have the right to issue bonds whenever necessary to carry on the duties entrusted to them by the law. Now no suspicion or allegation of fraud has been charged against them as far as I can find from any paper here or any statement made. There is another allegation in the complaint that large claims, amounting to several million dollars, have been paid out to persons having no existence, no legal demand, or claim or right to recover, and the allegations have not been denied as I understand by any of the defendants in their answers.

Mr. Beach—We deny any knowledge of a fraudulent character of these claims.

Judge Barnard—Before the preliminary injunction was granted in this case, it became necessary to enquire whether under the words "Expenses of City and County Government," it was the intention to stop all works on public parks, docks, streets, &c., and the counsel agreed with me that it was not the intention, and I said as I now shall rule to-day, that parks, docks, charities, police, Croton water, gas works, Board of Education and salaries, are not included in this injunction. Sums to pay the salaries of employes of these departments are supposed to have been raised by the Treasury and if paid away wrongfully, they, as matter of course are responsible and must see that the proper persons receive the money.—(Applause)—That brings me to the last Legislature. It is charged against two of the defendants, the Mayor and Comptroller, with having paid dishonest claims, knowing them to be such. The Comptroller, the city's financial officer, is entrusted with auditing and paying almost all the bills and even after rendition of judgment he still has the power to appeal and has paramount and supreme power, and it is on him, more than all the other officers together, that the people rely for the prevention of frauds. It is not possible to appropriate or take a single dollar from the Treasury, if he sees that bills coming into his office are properly audited. It is no excuse to say that his subordinates may deceive him. It is possible for them to do so, but it is a crime if it be done.

On paying these various claims of outrageous character, bearing on their face the appearance of being little better than highway robbery, it was his business to have examined carefully the vouchers and satisfied himself that the charges were correct and the services performed, and if he failed in that he failed in his duty to himself and to the citizens, and was guilty of criminal negligence. With regard to the duties of the Mayor, he says his duties are merely mechanical, and that the signs warrants as presented by the Comptroller, and although that may have been his practice, and I presume it has been for years, to sign checks without looking, and I have myself as Commissioner signed checks for millions without knowing they were correct, yet the community expect, or at least hope, that whenever an act is required to be done by three or four persons in certifying bills, they will not rely upon others, but will see to it themselves. I am not justified under the circumstances, in saying the payment of these bills by the Comptroller and raising of bonds by the board of apportionment authorize me to say that they are entitled to the confidence of the court so as to permit them to go on and spend more money. Having failed in consequence of omission, if not of commission, it is my painful duty not to allow another dollar to be paid from the treasury or another bond to be issued until such time as there shall be some alteration in that respect. (Applause.) It may be said that in consequence of granting this order the city and county governments will be disorganized. I have nothing to do with that. I have a plain duty to perform; not a pleasant one, but one which I cannot avoid. Whenever a proper case is presented for injunction it is my duty to grant it. It is said that there is a remedy for the purpose of trying charges against the Comptroller. I know of no such legal remedy, and whenever there is no remedy against robbing the community, it is the duty of the bench of equity to invent a remedy, and if none existed the court would be justified in resorting to any means in its power to prevent the continuance of that state of things. It is discreditable to the city. We all have the credit of the city at heart, whether aged men wishing to give their offspring an inheritance, or middle-aged men willing to provide for their children, or the little infant in the cradle—we are all interested in it and in looking for relief to prevent the confiscation of their property—the injunction is granted. (Frantic applause.)

In reply to Mr O'Gorman, Judge Barnard said it did not include the issue of assessment bonds, payable by property-owners, for local improvements.

POLITICAL.

WORCESTER, Mass., Sept. 15.

HOSTILITY TO GEN. BUTLER.

The election of delegates from this city to the Republican Convention resulted in the choice of 23 delegates who are extremely hostile to Butler, and are in preference divided between Jewell and Washburn. One ward was taken possession of by men who are not Republicans, and three Butler delegates were chosen whose election will be contested.

Ward 3 unanimously elected Mr. Bemis of the Lunatic Hospital, as an expression of opinion in regard to Butler's lies about that institution.

THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, Sept. 15—7:30 P. M.

Probabilities.

The barometer will probably continue to fall, with easterly winds and rain to-night, in New England, and cloudy weather is possible for Saturday, over the Middle and Eastern States. Low barometer will probably continue over the Lakes southward to the Gulf, with threatening and partially cloudy weather, except from Lake Superior to Iowa, where southerly winds and rain may possibly prevail by Saturday night.

RIOT.

PAWLING, N. Y., Sept. 15.

The men attached to O'Brien's circus and menagerie, which was to have performed here to-night, have created a riot and robbed nearly every house in the village, killed one citizen and wounded several others. The plundering is still going on and the authorities have telegraphed to Dover Plains for assistance.

—No police items yesterday.

—The wood and coal business is brisk.

—Mount Desert is now a mount deserted.

—The Maine Central mail train from the West was only a few minutes late last night.

—We saw several Republicans wearing new hats yesterday.

—The days and nights are nearly of an equal length.

—The P. M. A. tickets are selling very rapidly at Durens'.

—Joseph Nealley of Hampden has lately sold a two year old stallion colt for $300.

—A heavy frost visited this vicinity Thursday night, and curled up the tender vegetables.

—Daniel Thompson, Esq., declines to be interviewed by Miss Pussy. Daniel never did like the cat-echism.

—Parties are in the wood prospecting and preparing for next winter's lumbering operations.

—Kenduskeag bridge and the bridges at Morse's Mills and McQuesten's Mills, are to be repaired.

—It is expected that Chief Justice Appleton will preside at the Oxford County S. J. Court, commencing next Tuesday.

—B. F. Fernald, Esq., of Winn, has been appointed Justice of the Peace and Quorum for Aroostook and Washington Counties.

—Hermon has at last been heard from and is all right. Her citizens cast 169 votes for Perham and 118 for Kimball.

—Workmen are erecting a new passenger depot at Mattawamkeag Point, and moving three-quarters of the old station to the westward of its former site.

—About twenty men are employed repairing the Gordon Falls dam on the Mattawamkeag. Two wing dams are also to be built just above this dam, at the upper pitch.

—The new Revised Statutes will be ready for delivery about Sept. 20th. The price, as per contract with the State, is $4,00 per copy. They make a volume of 1285 pages.

—The annual prediction of a tidal wave is out, this time on the night of the 5th, or the morning of the 6th of October. The predictions have been considerably "out" for several years past.

—The Bangor delegation to the Railroad Convention, Thursday, wish to express their thanks to the people of Ellsworth for their open-handed hospitality and the many acts of kindness performed that day.

—Mr. S. P. Brown, formerly of Orland, but who has been a resident of the District of Columbia for several years, and is now member of the Board of Public Works, is very seriously ill at his residence in Washington.

—Hon. Bion Bradbury and Hon. J. H. Drummond of Portland are in Belfast, for the purpose of arranging for a reference of the claims of Willson, Tennant & Co., against the Belfast & Moosehead Lake Railroad.

—The house of Samuel Lane, on the Beech Hill road in Northport, was burned on Monday morning last, by the roof taking fire from the chimney. The furniture was saved. Loss $1000; insured for $700.

—Mr Chas. A. Coombs, station agent for a number of years at the Androscoggin depot in Lewiston, has been appointed Superintendent of the Knox & Lincoln railroad, and has entered upon his duties.

—A meeting of the City Council was held last evening, but the crowded state of our columns compels us to lay over the full report until our next edition. No business of special importance was transacted.

—The exhibition of the Horticultural Society in City Hall closed last evening. The attendance was much larger yesterday than on the two previous days, and it is hoped the Society will clear their expenses. We shall publish a list of the premiums on Monday.

—We regret very much that the Farmers' Convention at Lincoln will be held on two days of the exhibition and fair of the Penobscot Agricultural Society in this city, which will prevent many of our farmers from gaining the advantages of both.

—Levi Y. Boynton and Eugene A. Green were drawn yesterday, to serve as traverse jurors at the October term of the Supreme Judicial Court for this County, and Ivory A. Hodgkins and Gilman Cram, to serve as Grand Jurors at the February (criminal) term of the same Court.

SHOW AND FAIR. The Presumpscot Park Association, in conjunction with the Cumberland County Agricultural and Portland Horticultural Societies, will hold a grand Show and Fair, Sept. 26, 27, 28 and 29, on Forest City Park and in City Hall, Portland. A very liberal premium list is announced, and under the best of management, the exhibition promises to be a grand affair.

PERSONAL. Miss S. T. Holt of Bangor, and Miss A. L. Barstow of Boston, were at Prague Austria, Aug. 29th, en route from Dresden to Lucerne, Switzerland, to meet Prof. D. L. Talcott and daughters, the Prof. being detained at that place by illness, and prevented from meeting the party at Dresden. After some time spent in Switzerland and Paris, the Professor and daughters will embark Oct. 19th for America. Miss Holt and Miss Barstow will remain to visit Italy. The first intelligence received by the party of the Bangor disaster, was through The Whig and Courier at Dresden.

THEATRE. Next week, Miss Kate Reignolds, with a good company, will appear at Norombega Hall. On Tuesday evening will be performed Miss Reignolds' dramatization of Mrs. Stowe's last novel, "Pink and White Tyranny," for which she has been complimented by the authoress in a very flattering manner. An adaptation of Charles Reade's sensational novel, "A Terrible Temptation" will be presented Wednesday night, and those who have read the book and are acquainted with Miss Reignolds' success as a dramatic authoress and actress will be sure to see her in both plays. Mr. E. M. Leslie is manager of the Company, which is a warrant for the excellence of her support.

AN APOLOGY TO BUCKSPORT. Our Bucksport friends is probably wondered at the figures given in our item yesterday concerning the Penobscot and Union River Railroad Co. By a strange error which escaped detection until the paper was issued, the subscriptions were stated at just one-tenth the actual amount. The sum voted by the town as subscription to the stock was sixty-five thousand dollars and the individual subscriptions eighty-three thousand dollars, making one hundred and forty-eight thousand dollars ($148,000), in all from Bucksport, which looks rather more "like railroad."

NOROMBEGA HALL. Some persons having expressed a query as to the safety of Norombega Hall, when a large audience was gathered there, the Trustees of the Penobscot Musical Association, in view of their next session, desired to know the truth of the matter, and voted to have a thorough examination by competent men.

Messrs. S. S. Low and Charles Sawtelle, with Mr. Geo. W. Merrill, made such examination and ascertained that the foundation, and the timbers throughout the building were perfectly sound and well secured, with the exception of the platforms at the entrances, at each end. These have been strengthened by timbers and bands, and are now strong.

The building is considered safe for any audience that can be gathered therein.

Their certificate is appended herewith—

BANGOR, Sept. 14th, 1871.

To the Trustees of Penobscot Musical Association:—

We, the undersigned, have examined the foundation and timbers of Norombega Hall, and with the repairs already put upon it, do pronounce it sound and safe for 2000 people.

Yours truly,
S. S. LOW,
CHARLES SAWTELLE.
GEORGE W MERRILL.

KINGMAN.

A THRIVING VILLAGE IN THE WILDS OF MAINE—THE GROWTH OF WESTERN TOWNS RIVALLED—WHAT ENERGY AND CAPITAL CAN DO IN A YEAR—DESCRIPTION OF THE TANNERY AND TOWN—THE FOUNDER OF KINGMAN.

Kingman is in many respects unrivalled by any town in Maine.

Having delivered ourselves of this sententious statement, we shall proceed to prove it, we think, to the entire satisfaction of our readers.

A little over a year and a half ago, the site of Kingman, once called by the Indians and lumbermen

"JIMSKITTICOOK,"

and more lately Independence plantation, was a thick forest, unbroken by any opening save what is called the "Old Goddard Farm," a clearing on the bank of the Mattawamkeag river, some nine miles above Mattawamkeag. This clearing was made on the meadow land by direction of Col. John Goddard, forty years ago, to raise hay for the lumbering teams, and the only building standing on it at the time we speak of, was a large barn, erected in 1832, soon after the first crop was harvested. There were no means of reaching the farm with teams, save on the river, on the ice, as no road ran through the forest.

But here and there could be seen the stakes of the engineers, indicating that at some future time, if funds came in sufficiently fast, and other things were propitious, the European & North American Railway would be extended from Winn to the State line. Here was

AN OPPORTUNITY FOR FAITH.

The water power was excellent, the land in the vicinity exceedingly fertile, most of it very heavily timbered, and a great proportion of the timber was hemlock. Now if the railway was to run through the region all these natural advantages might prove exceedingly valuable; if the railway did not reach the spot, they could not be profitably developed.

We must go back a little here. Whenever in New England or the Canadas you hear tanning or tanneries mentioned, it is rare not to hear the name of Shaw spoken in the same sentence. There are six brothers Shaw, and three sisters and every one of those brothers and the husbands of their sisters are interested in tanning. They have their headquarters in Montreal and Boston, from which they direct operations over an immense area of territory. They monopolize the tanning business in Canada, having five immense establishments there in different sections. In Maine they have one at Vanceboro' (where the E. & N. A. Railway crosses the State line into New Brunswick) which is the largest in New England; at Forest City, some 25 miles above Vanceboro', they have another of 300 vats—the same size as that at Winn; another of 400 vats at Jackson Brook; and on Grand Lake stream, 25 miles above Princeton, they are building another which will be the largest in the world. Some querists may ask "why erect such immense establishments in such out-of-the-way places?" The answer is very plain; it is nearly one-half cheaper to freight the raw hides to the locality of the hemlock bark, than it is to freight the bark to the place where the hides are obtained. Bark though not very heavy is very bulky, and is also brittle and friable, so besides the great space it requires in transportation, there would be much loss of material every time it was handled. Hides can be pressed and corded into very compact bales, easy to handle and subject to no detriment in carriage. They are therefore shipped from the East Indies and South America to Maine, and the Provinces, where they are manufactured into leather.

But to return to "Jimskitticook." Mr. R. S. Kingman, a brother-in-law of the Shaws, who had been interested in the tannery at Winn, looked the matter over very earnestly. He had faith in the extension of the railway; he believed that "Jimskitticook" was destined to become the site of a flourishing town. The Shaws believed in his judgment. A partnership,—Shaw & Kingman—was formed, and

EIGHTY THOUSAND ACRES OF LAND,

divided by the Mattawamkeag river into two nearly equal parts, and having "Jimskitticook" about in the center, were purchased.

To Jimskitticook, then, Mr. Kingman removed, taking up his residence in a low log hut (still standing) where he lived for six months with his workmen. The Mattawamkeag falls here ten feet in a short distance, and at the head of the pitch,

A DAM FIVE HUNDRED FEET LONG

was commenced in January, 1870. The work was very difficult owing to the extreme cold weather, but the enterprise was pushed vigorously. The early spring brought a sudden thaw, the water rose with great rapidity and the unfinished dam was swept away. Once more it was built up, and again was it carried down river by a freshet. Nothing daunted, the structure was erected a third time, more substantial than ever before, and it stood. On the ninth of July, 1870, the first lumber was sawed by a circular saw having set up for the mill. At that date the only building standing save a few rude shanties was the old Goddard barn. Now there are over sixty buildings—all substantial, well made and finished. The village has been divided into streets and lots under the proprietor's direction, and has been named "Kingman" in his honor, by common consent of everybody, though it has never had a formal christening. We paid

A FLYING VISIT

to Kingman a few weeks since, and like every new comer, were greatly surprised at the size and thrift of the place. The E. & N. A. Railway, which reached the village in July, here follows up the right bank of the Mattawamkeag. The visitor steps from the train to the platform in front of the neat little brown-painted station just finished by the Railway Company, on the upper side of the road. Looking across the track, one sees the river below, and beyond the wooded hills. Down river a quarter-mile, is visible the intervale and old barn before mentioned. To the left between the track and the river, is the immense storehouse, so situated that a side track will take the cars directly to its doors. Above this are the other tannery buildings and the saw-mill.

THE VILLAGE.

From the upper end of the station a road runs up a slight eminence, on which a comprehensive view of the whole village is obtained. On this eminence are situated the private grounds of Mr. Kingman. Here he will have lawns, groves, walks and drives in tasteful order, laid out by a Swede with an unpronounceable name, who from his early youth has followed the profession of landscape gardener. In the center of the grounds stands Mr. Kingman's house now in process of construction. It is not large, but its commanding site will make it one of the most prominent objects of the village and when finished it cannot be excelled for convenience or taste by any dwelling in this city. At the foot of his grounds, and facing the principal street, (running parallel with the river,) is Mr. Kingman's office, a small but pretty and well-arranged structure, in which his books and papers are kept, and where one of his clerks has a sleeping apartment.

Nearly opposite the office Messrs. Jameson & Kellogg are erecting a handsome building, 25 by 58 feet and two stories high, for a store. Going along this main street one passes Mr. Kingman's blacksmiths' shop 28 by 40 feet, carpenters' shop 26 by 50 feet (two stories) and various other buildings occupied as workshops by his mechanics. On this street he is having built a hotel and boarding house the main portion of which is 32 by 40 feet, and the ell 23 by 60, both two stories, with a lofty roof which gives sufficient room for a third floor. A short distance further along are the houses of the residents, all one-and-a-half stories high, built at equal distances apart, on a uniform pattern, clapboarded, neatly finished and painted white. There are between 35 and 40 of these houses built and owned by Mr. Kingman, who rents them to his workmen. Each house has a little garden plat, and viewed at a distance, they look like one of those toy villages which the Swiss carve so deftly from wood.

On streets at right angles with the main street are other houses, and on the up-rivermost street is situated a long low wooden structure, occupied by the sixty Swedes who lately came to Kingman from New Sweden. Mr. Kingman informed us that these people are very industrious and frugal, and that before winter they will be in better quarters than these barracks, which are intended for a temporary shelter only.

On another cross street Mr. Kingman has built at his own expense a handsome schoolhouse, 28 by 50 feet, which will be fitted and furnished in the most approved modern manner for the benefit of "the young and rising generation." Mr. Kingman is determined that his workmen shall have all the advantages here that they would in a much larger place, and has devoted much time and money to schemes for their welfare. He gives constant employment in the village this year to over one hundred men, besides the mechanics brought in to work on the buildings, and in the woods he has had three hundred men this summer, peeling bark for the tannery. Most of these men will eventually settle at Kingman, and building operations will be resumed next season with even greater vigor than before. One hundred acres of land were cleared the past year and one hundred and fifty acres more will have been cleared by the time snow begins to fall, and as the soil is very rich and has never before been cultivated it will be seen that the coming multitude will not lack of provisions. Besides the Goddard farm on the intervale, Mr. Kingman owns a good farm a few miles across the river, on which he keeps a large stock of cattle and horses. The farms last year produced 1800 bushels of potatoes and 1000 bushels of carrots, turnips and other roots, and this year the product will be about the same. One hundred and sixty acres were sown to oats this season, and will yield abundantly, as the drouth which so damaged crops in other parts of the State, did not affect this region. About 120 tons English, and 150 tons meadow and intervale hay were cut on the farms this summer, which will be needed for the horses used in hauling out the bark.

Ten thousand cords of bark will be used annually, and it will require two and a half months to peel it, the same length of time to "yard" it, or collect it in piles easy of access by woods roads, and the whole winter to haul it out to the yard near the tannery. Adjoining the bark-yard is a stable 50 by 100 feet, in which will be domiciled the hundred or more horses needed in hauling bark and the thousand cords of wood burned under the boilers each winter.

THE TANNERY.

Accompanied by Mr. Kingman we proceed to the dam, an immense and solid structure of logs laid up "cob-house fashion," and thoroughly bolted. There is no water power between Kingman and Oldtown so good as this. The whole Mattawamkeag river is held back for nearly a mile, with a head of ten feet at the driest season of the year. Just below the dam is the lumber mill, where every stick and board used in building the village has been manufactured. The building is large and has two floors upon which machinery is run. Here are board saws, planers, lath, shingle and clapboard machines, turning lathes, and in fact nearly every kind of mechanism used in working lumber into building stuff.

A short distance down river is the bark-mill and leach-house, covering a space 40 by 188 feet on the ground. Here the bark is ground at the rate of 30 to 35 cords per day, in three mills (something like enormous coffee mills) and turned into huge vats or leach-tubs, where the tannin is extracted. The liquor thus obtained passes from vat to vat into the enormous structure where the hides undergo the tanning process. Here are 600 vats, all so connected that when one is full the liquor runs into the next, and so on back to the leach-house. These vats are under a building 76 by 420 feet on the ground, and the hides are taken from one part to another by cars running on miniature railways. Next below is what is called a "turret-dryer," a building 78 by 38 feet, nine stories in height, with a huge ventilating cupola on the roof and long low windows in each story, so that the supply of air can be very easily regulated. In the middle of the dryer is an elevator, and the hides when taken from the vats or "pits," can be run along on the cars before mentioned, into the dry-house and lifted to any floor desired, there to be hung over horizontal poles until sufficiently dry. To determine just when the sides of leather are dry enough to finish requires long experience and the best of judgment. Should any get too dry, or not dry enough, when finished, they would not have the proper color, and their price on the market would be much reduced. After being dried, the sides are thrown one by one upon solid tables, where large brass rollers in the lower ends of beams, swaying back and forth like pendulums, give the final polish to the leather, which is then weighed, marked and taken into the storehouse (150 by 40 feet) by the track, to await shipment.

The beam-house, 40 by 20, two stories in height, is situated near the building containing the "pits." Underneath it are the sweat-rooms where the hides, first soaked to render them pliable and moist, are fastened up air-tight, to "sweat" until the hair starts. They are then taken to the beam-room proper, laid over rounded beams set at an angle in the floor, and men with steel scrapers (we forget the technical name) remove the hair and smooth the skins before they are thrown into the tanning liquor.

We have given but a crude description of this monster tannery—a person to realize its magnitude must inspect it: figures do not convey an idea like actual vision.

The producing capacity of the tannery is 1,000 tons of sole leather per annum, in tanning which 10,000 cords of bark will be used. At the time of our visit but five car-loads had been sent away, so it will be seen that notwithstanding all this immense outlay of money and labor, not a cent has then been received in return. If a business venture like this does not require faith, what does?

Still more is to be expended before winter Four large boilers are to be set up under a corrugated-iron house, at a sufficient distance from the other tannery buildings to ensure safety from fire, and the whole establishment will be heated by steam. It is contemplated also to improve the streets of the village, which have all been laid out by Mr. Fred. H. Coombs, C. E., of this city and thus give plenty of room for the expansion of the village to an unlimited extent. Mr. Kingman has built at an expense of several thousand dollars, this summer, a good carriage-road from the village to the road running from Mattawamkeag to Houlton, thus rendering the village easy of access by teams, but the main business will of course be done over the railway. Between this time and January the tannery will send out some 500 tons of leather, which of course will be quite an item of freight. And here we may remark by way of parenthesis, that if all the tanneries on the line send their leather over the E. & N. A. Railway, we are told it will amount to 7,000 tons per annum.

MR. KINGMAN—

the "Head Center," the brain that directs all the affairs at the village named for him, whose untiring energy and enterprise made that village what it is, is possessed of qualities that in any position would make him a man of mark. The toil, both manual and mental, that he has performed during the past two years would have killed an ordinary man or sent him to the insane asylum. There is hardly a stick in the buildings at Kingman which he did not plan and see put in place. While carrying on the affairs of one of the largest tanneries in the state—a business of itself too much of a burden for one man—he has found time to build up a town about him. He hires every man of the 400 to 500 constantly at work for him, and no one has authority to discharge them but himself. He knows every one by name and the exact spot where each is at work. He knows even the condition of every one of the harnesses used on the numerous horses working for him in the woods. Indeed, one cannot puzzle him with any question concerning the smallest particular of anything about the tannery or village. We could almost believe that if he should be asked the number of pieces in the rubble-stone foundation of all his tenant houses, he would answer correctly on the instant.

His executive ability as well as his memory is very great. He has five foremen, and each of these has two sub-foremen, but every question is referred to Mr. Kingman, and he gives minute directions for every job that is undertaken. We asked how he managed to do so much labor and that of so great variety, and his reply was: "*System and habit.* I rise every morning very early, and before breakfast I have every particular of my day's work mapped out in my mind, so that I know where to go and what to do each hour."

To this we add *temperance* and an indomitable *energy*. Without the first no man's brain could be arranged so like an index, and without the second his thousands of plans could not be carried out with the success that every where attends them now.

Mr. Kingman is yet young—very little over 40—and is very unpretending in manner and dress. Over six feet in height, broad shouldered as a Hercules, time and his severe labors have left no mark upon him save the silver that plentifully besprinkles his hair and flowing beard. His features are large and regular, his forehead overarching a deep-set pair of grey eyes that have lost nothing of the light and sparkle of early youth. Sealed severe and cold by those who by wrong-doing or unfair-dealing have incurred his displeasure, he is nevertheless very cordial and pleasant to his friends, for whom he will do anything within his power. Awaiting the completion of his new house, he lives for the present in one of the little houses erected for his workmen, which Mrs. Kingman, a young, fine looking and accomplished lady, has converted into a very cosy and pleasant home.

——We have endeavored in the foregoing to give a concise description of this wonderful little town upon the Mattawamkeag, which has heretofore been almost unknown to the public, cut off from communication with the outer world as it has been until July last. We acknowledge the paucity and imperfectness of our sketch, but trust it has faintly shadowed forth the benefit of live business men and railroads to an undeveloped section of our State.

A SIGN OF PROGRESS.—A dispatch from Nashville states that the first annual fair of the colored people's Agricultural and Mechanical Association of Middle Tennessee, is now in progress at the fair grounds near that city. The display of plants and shrubbery, fruits, paintings, and textile fabrics is very creditable, and the exhibition of cattle, sheep, horses and mules attracts much attention.—The whole affair is managed by colored men.

The Boston Traveller says: "The Post claims that its articles attempting to show the people of Maine that they were on the road to ruin, 'were not without visible effect' upon the election in that State. We suspect that the Post is right in this—but the 'effect' is not just what was intended."

Rev. Dr. Barrows, Secretary of the Congregational Publishing Society, Boston, set forth in able addresses at the union meeting in Hammond street church last Sabbath afternoon and in several Sabbath school concerts in the evening, the great extent and rapidly increasing population of our country, especially in the West, and the need of meeting-houses, churches, ministers, Sabbath schools, and moral and religious literature to ensure the highest and best prosperity of the nation.

A Mass Methodist Convention for the State will be held in Portland, Chestnut street church, commencing at nine o'clock, October 10th, and continuing two days. The object of the convention will be to confer together, with regard to the general interests of the denomination in the State. Among the subjects for essays and discussions are the following: The History of Methodism in Maine with Comparative Statistics; Methodism and the State; the Various Educational Interests of the Denomination; Finances; The Mission Work in the State; Changes in the Polity of Usages of the Denomination. Other subjects will be considered at the pleasure of the convention. A large gathering is expected, and the occasion will probably be one of interest.

The Mobile Register tells Semmes that "the ease and modesty which eminently qualify a man to be a ... sailor, or the ... may equally unfit him for the role of the historian."

BUSINESS ITEMS.

IMPORTANT NOTICE. From a Circular just issued by the Eminent Bankers, Messrs. JAY COOKE & Co., we make the following extracts relative to the exchanging of Government Bonds for railroad securities:

"The signal success of the New Five Per Cent Government Loan foreshadows the early funding of the entire public debt at less rate than 6 per cent., and indicates that the average rate of interest on loanable capital in this country will henceforward be considerably lower than it has been, the tendency being to an equalization of rates between America and Europe.

In view of these facts, the present holders of United States Five-Twenties must decide whether it is not best to make at once such a change of investment as will enable them to realize as profit, or add to their capital the present average premium of 14 per cent. on Five-Twenties, while at the same time largely increasing their annual income."

"These most unusual opportunities for the profitable conversion of Government Bonds into Corporate Securities of undoubted reliability cannot, in the nature of the case, long continue. The increasing abundance of loanable capital, both at home and abroad; the almost certain rise in value of all desirable railroad mortgages, and the early funding of the remainder of the National Debt at lower rates, promise very soon to change the entire aspect of the loan market, which is just now so peculiarly favorable to investors. This state of things suggests prompt action on the part of those who wish to exchange securities in time to profit by the present high premium on Five-Twenties."

And in this connection it is important to say that THE OPPORTUNITY FOR EXCHANGING U. S. BONDS FOR THE BONDS OF THE EUROPEAN & NORTH AMERICAN RAILWAY COMPANY WILL SOON BE GONE! The entire amount of the issue ($2,000,000) is nearly all sold, and the balance is being absorbed very rapidly.

The wonderfully quick sales made of these Bonds, and the fact that Savings Banks and investors of large experience have bought great amounts for permanent investment, prove them to be the most popular investment of the kind now offering in this part of the country. Their many desirable features and thorough and unquestionable security recommend them far and wide.

The last rail on the E. & N. A. Railway will be laid next week!

The very limited amount of Bonds now remaining, and the prospect of an advance in price of these and similar first class securities, as foreshadowed in the Circular of Messrs. Jay Cooke & Co., make it apparent that parties wishing to avail of the opportunity to secure these Bonds at their present low price had better apply AT ONCE.

The holder of U. S. 6 per cent. Bonds receives but $60 per year in gold on each $1000 Bond while by exchanging the same for E. & N. A. Bonds he can receive $75 per year in gold—equivalent to $84 in currency!

This is preferable to exchanging 5-20s for 4½ per cent. Bonds, even, and thereby receiving but $45 in gold per year.

The highest market price allowed for U. S. Bonds in exchange for E. & N. A. R. Bonds. Apply to ELIAS MERRILL, FIRST NATIONAL BANK, BANGOR, Principal Agent E. & N. A. Railway for sale of Bonds.

THE AMERICAN HOUSE, BOSTON, is so favorably known that it seems a work of supererogation to call attention to its many great improvements. Yet, as it bases no claims on its superiority, it is only justice to make known the steady effort manifested by its proprietors to render it the leading hotel of New England.

The property on Kenduskeag Avenue advertised in this paper will be sold at auction, on the premises, Saturday afternoon at half-past 2 o'clock, by R. S. PRESCOTT.

A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount, upon a railroad which is well located for business, and which has been already largely constructed with the funds of its Stockholders, cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of high character, and of ample means for successfully carrying through any work that they undertake.

THE

EUROPEAN, MOBILE & TEXAS

RAILROAD COMPANY

Offer for sale a bond which combines these advantages to an unusual degree. The route lies between Mobile, Alabama, and Houston, Texas—passing through New Orleans, the New York of the South. Of the whole line of 475 miles, about two-thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans, which has an enormous traffic assured to it from the start, this being the only rail connection by which the cotton, corn, cattle and other productions of Texas can reach New Orleans.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The First Mortgage

Eight Per cent. Bonds

Now offered, are limited in amount to $12,500 per mile, and are for $1,000 or £200 each, interest payable January and July, at the rate of 8 per cent. Currency or 7 per cent. Gold, at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. ED. Morgan, Ex-Governor and Ex-U. S. Senator; Hon. John A. Griswold, Ex-Lieutenant-Governor, Troy, N. Y.; Hon. Oakes Ames, M. C., Massachusetts; Messrs. Morton Bliss & Co., L. Von Hoffman & Co., J. & W. Seligman & Co., Harrison Durkee, and others, of New York; Benjamin E. Bates, President Bank of Commerce, Franklin Havens, President Merchants' Bank, Boston, and others, also well known.

The above statement of facts proves the SAFETY of these Bonds. Their PROFIT is equally manifest upon examination. They are sold for the present at 90, and accrued interest from July 1st. At this price they afford a certain income for forty-five years, of nearly nine per cent. upon their cost. One thousand dollars invested in these eight per cent bonds will give the purchaser *more than seventy-seven per cent.* greater annual interest than the same amount invested in the new Government five Per Cents, while holders of Government Sixes will find a decided profit in selling them at present high prices, and re-investing in the New Orleans, Mobile and Texas Bonds.

Subscriptions will be received in Bangor by

and in Bucksport by

BONDS

—OF THE—

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E & N A RAILWAY is completed from Bangor, Maine, to St John, New Brunswick, a distance of 202 miles,—with the exception of 54 miles between Winn, Me, and the boundary line of the State at Vanceboro'. On this portion the track is now being laid, both from Winn eastward, and from Vanceboro' westward, and the work will be completed and trains running from Bangor to St. John in September next.

This road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia. The population of the maritime Provinces is about ONE MILLION and all the inland travel freight, mails, &c, between them and the United States will pass over the Trunk line, which is WITHOUT COMPETITION.

Although not yet completed the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing.

The net earnings from Local Business alone on the 56 miles completed in Maine, already exceed the interest on two and one quarter millions of dollars, and will be largely increased after Sept next by the business to and from the Provinces.

To complete this road and to equip it as fully as its present large business and the immense increase consequent upon its completion, requires, the Company has issued its Bonds to the amount of Two Millions of Dollars, secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO' (besides a Second Mortgage on the entire road and equipments from Bangor to Winn, 56 miles. This portion cost the $2,500,000, and the only lien thereon is a mortgage to the city of Bangor for $1,000,000)—and, in addition thereto by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of the road. They are situated along the Penobscot and St John rivers and are heavily timbered and valuable large tracts, especially in the fertile Aroostook Valley, (the most agricultural district in the State, are valuable for farming lands as well as for their timber. This immense grant of lands equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1,250 square miles (nearly as large as the State of Rhode Island, which is 1,306 square miles) and are of great value.

Thus, besides the mortgage of the Railway, its equipments, &c, which alone is ample security for the Bonds, there are timber and farm lands to the amount of

400 ACRES TO EACH BOND

also pledged to ensure the payment thereof
The Bonds are for $1000 each, due March 1, 1889 ... interest at

Free from U. S. Taxation.

Coupons payable March 1 and September 1, in New York. Bonds registered if desired. Coupons made payable (£6 each) in London, England, if preferred.

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees to be invested in these Bonds if they can be bought at par or less, otherwise in United States State or Municipal Securities. And on July 1, 1879 and annually thereafter until these Bonds become due or are all paid, the E & N A Railway Co is bound to pay to the Trustees a sum of money equal to one per cent of the amount of Bonds outstanding. Such amounts, and all interest received on securities, belonging to the SINKING FUND are to be invested as above stated, and these accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. The Sinking Fund constitutes a third great element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon HANNIBAL HAMLIN, of Bangor, Me, and EDGAR THOMSON, Esq, of Philadelphia, Pa.

The Trustee's are authorized to receive the Bonds at Par, and Accrued Interest in payment for any of the lands at their appraised value. These very desirable securities for sale at

ARE ENDORSED AND PRESCRIBED BY MORE Leading Physicians than any other Tonic or Stimulant now in use They are

A SURE PREVENTIVE

For Fever and Ague, Intermittents, Biliousness and all disorders arising from malarious causes They are highly recommended as an ANTI-DYSPEPTIC, and in cases of INDIGESTION are INVALUABLE. As an APPETIZER and RECUPERANT, and in cases of GENERAL DEBILITY they have never, in a single instance failed in producing the most happy results. They are particularly

BENEFICIAL TO FEMALES,

Strengthening the body, invigorating the mind, and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no tonic, stimulant has ever before been offered to the public so PLEASANT TO THE TASTE and at the same time combining so many remedial agents endorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs but little to give them a fair trial, and,

Every Family Should Have a Bottle.

No preparation in the world can produce so many unqualified endorsements by physicians of the very highest standing, in their profession

Endorsed also by the Clergy and the leading denominational papers.

S H MELCHER
Resident Physician in charge U S Marine Hospital

JAMES A JACKSON & CO—Gentlemen As you have communicated to the medical profession the recipe of the "Home Bitters," it cannot, therefore, be considered as a patent medicine no patent having been taken for it. We have examined the formula for making the "Home Bitters" and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly tonic, stimulant, stomachic, carminative and slightly laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effects in our private practice we take pleasure in recommending them to all persons desirous of taking Bitters as being the best tonic and stimulant now offered to the public.

DR. E. R. CLARKE'S

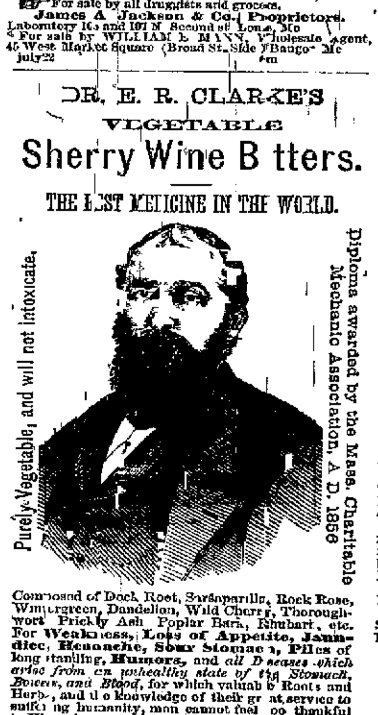

VEGETABLE

Sherry Wine Bitters.

THE BEST MEDICINE IN THE WORLD.

Diploma awarded by the Mass. Charitable Mechanic Association, A D. 1856

Purely Vegetable, and will not intoxicate.

Compound of Dock Root, Sarsaparilla, Rock Rose, Wintergreen, Dandelion, Wild Cherry, Thoroughwort, Prickly Ash, Poplar Bark, Rhubarb, etc. For Weakness, Loss of Appetite, Jaundice, Headache, Sour Stomach, Piles of long standing, Humors, and all Diseases which arise from an unhealthy state of the Stomach, Bowels, and Blood, for which valuable Roots and Herbs, and the knowledge of their great service to suffering humanity, man cannot feel too thankful to Him who wisely provided us with all things

TO ALL PERSONS,

BOTH SICK AND WELL

If a Long Life of Health and Happiness is desired, let these Bitters be taken, particularly in the Spring and Warm Seasons of the year, and especially by the following classes of people—The MECHANIC, who, from his constant indoor labors, not having sufficient access to the bracing and refreshing air out of doors, becomes weakened at the stomach, nervous, pale and sickly, his food not relishing nor properly digesting. He should take these Bitters, and freely too, in order to get his system up, right and strong, and in prime condition to go through the warm weather in good shape with his constant daily labors. The exhilarating and cleansing power of the Dock Root, Dandelion, Poplar, and Prickly Ash Bark, is what will bring him up, and make him, physically speaking, once more a man! The MILL OPERATIVE will find this Medicine the very thing to cleanse the blood and strengthen the system, and very mild and pleasant to take. The PALE AND ONCE BEAUTIFUL LADY has but to take this compound, freely and she will be speedily restored to health, beauty and buoyancy. The HONEST FARMER, the CLERGYMAN and LAWYER, and MEN OF SEDENTARY HABITS—this is your Medicine! After once using it, you will never be without it. It will improve you twenty five per cent. The MARINER will find it the best medicine in the world for his use, it makes him, withal sea, hearty and rugged, and capable of great endurance and exposure, and when on shore, it renovates his blood, and restores and repairs his system.

The Largest Bottle, the Lowest Price, and the most Effectual Remedy in the World.

FIRST MORTGAGE [illegible]

JAY COOKE & CO. are now selling and recommend as a profitable and safe investment for all classes, the First Mortgage 7 3-10 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three Tenths per cent gold interest (more than 8 per cent currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on 23 000 Acres of Land to every mile of track, or 500 acres for each $1 000 Bond. They are exempt from U. S. Tax, principal and interest are payable in gold. Denominations—Coupons $100 to $1,000, Registered, $100 to $10,000

Northern Pacific 7-30's are at all times receivable at TEN PER CENT ABOVE PAR, in exchange for the Company's lands at their lowest cash price

The proceeds of all sales of lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company The Land Grant of the Road exceeds Fifty Million Acres. This is the most fertile portion of the Northwest and the Company's lands for settlement already exceeds the ability of the Government to complete the surveys. The immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of U S Five-Twenties, who wish to convert them into a first class railroad security can do so at a present profit of about 15 per cent, while increasing their interest income nearly one fourth, by exchanging them for Northern Pacific 7-30s

All marketable stocks and bonds will be received in exchange, free of express charges, at their highest current price. Full information, maps, pamphlets, etc., will be furnished on application to any agent for the Loan, or to JAY COOKE & CO, New York, Philadelphia, or Washington
